

Jeffrey J. Cher

Los Angeles, CA | (626) 417-9384 | jeffreicher15@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

Technical Experience

Strong: React.js, Redux, React Router, JSX, JavaScript, Axios, AJAX, JSON, ES5, ES6, Git, Github, JQuery, HTML5, CSS3, Flexbox, OOP, UX/UI, Syteline 8

Experienced: PHP, Node.js, Express.js, Firebase, AWS, MySQL, SQL, Bootstrap, Materialize, Agile Methodology, Photoshop, InDesign, Illustrator, SolidWorks, Cisco Internetworking System, Cisco Router Configuration

Tools: Chrome Dev Tools, Visual Studio Code, PHPStorm, Atom, Meistertask, Postman, MAMP, Slack

Applications Developed

Ding - *Mobile-first application that creates dinner meal recipes for the indecisive*

[Github](#) | [Live](#)

- Positioned and styled elements through the use of **HTML5 & CSS3 (Materialize & Flexbox)**.
- Handled page routing and site-wide navigation via **React.js** and **React Router**.
- Implemented database communication, stored user preferences and created a checkbox grocery list generation tool through the use of **Axios, mySQL** and **PHP**.
- Followed **Agile Methodology** to resolve application issues quickly and efficiently.
- Used **Git & Github** to implement version control and **Meistertask** for time management.

MBoutique - *Online (mobile and web) storefront specializing in macarons*

[Github](#) | [Live](#)

- Employed website functionality and navigation through **React.js, React Router**, and **JavaScript**.
- Utilized **HTML5 & CSS3 (Materialize & Flexbox)** for application design and layout.
- Integrated **Redux Form** for the application contact form and validated the data before submission.
- Managed mobile and desktop devices through the use of **CSS media queries**.

Student Grade Table - *Academic content management system for student information*

[Github](#) | [Live](#)

- Designed web application responsiveness and **UX/UI** through **HTML5** and **CSS3 (Bootstrap)**.
- Exercised **JavaScript** and **JQuery** to manipulate the database, DOM, and display information.
- Applied **AJAX** calls to retrieve **JSON** information stored on a **MySQL** database served through **Node.js**.
- Installed **CRUD** operations and a **CRON** job in order to repopulate table data hourly.

Experience

Supply Chain Analyst - EMCORE

March 2016 - August 2017

- Worked with **Syteline 8 ERP** system to handle purchase orders for production.
- Handled meetings and meeting minutes efficiently, providing upper management and team members with accurate and timely information.
- Created entire company product spreadsheet to review per unit revenue and proposed the removal of low revenue units to upper management. Led to savings upwards of **\$400,000**.

Education

California State University, Los Angeles - B.S Industrial Technology, *Focus: Internetworking Systems*

- Website Development, Internetworking, Router Configs, Graphic Comm, Lithography, Product Design

LearningFuze Accelerate Web Development Program

- Graduated from the Full Immersion Program and gained over **800** hours of programming experience.
- Worked in multiple team environments and created applications with other developers.
